RENEW by TRINITY Showcasing Innovative Home Essentials Made from Upcycled Bamboo Chopsticks at TIHS 2025

From serving boards to chic storage solutions, RENEW by TRINITY’s artisan-crafted products are setting new standards in sustainable living

CARSON, CA – Feb. 25, 2025 – [RENEW by TRINITY](#), a creator of artisan housewares crafted from upcycled materials, will showcase its sustainable collection—***featuring products made from recycled bamboo chopsticks in the USA***—at The Inspired Home Show® 2025, held March 2-4 at Chicago’s McCormick Place Booth N6919. This collection includes serving boards, pet crates, home furnishings, and customizable shelving, demonstrating TRINITY’s ongoing commitment to innovation, quality, and sustainability.

“Our RENEW by TRINITY line exemplifies how everyday products can be reimaged through sustainability and thoughtful design,” said Cze-Chao Tam, CEO of TRINITY. “Each product is manufactured in our Chop Shop in the USA, transforming discarded bamboo chopsticks into durable, high-quality serving boards and furnishings that contribute to a healthier planet.”

Discover our innovative collection of sustainable home essentials designed to elevate every space with eco-friendly style and functionality, including:

Artisan Bread Boards for Sustainable Kitchens

The *Multi-Grain Bread Board* is an eco-friendly kitchen essential, perfect for preparing and presenting meals. ***Crafted entirely from 813 reclaimed bamboo chopsticks, this***

bread board avoids 87.09 pounds of CO₂ emissions, proving that sustainability and functionality can go hand in hand. Each board features a unique grain pattern and is available with custom engraving options. [Available online for \\$198.00.](#)

Sustainable Design Meets Pet Comfort

The *Hide + Seek Dog Crate and End Table* combines pet comfort with home décor.

Made from 2,129 reclaimed bamboo chopsticks, this dual-purpose crate and end table avoids 228.01 pounds of CO₂ emissions while offering a safe, stylish space for small dogs. The artisan-crafted design includes a metal gate with dual opening directions and a built-in storage drawer for leashes, toys, and treats. [Available online for \\$398.00.](#)

Customizable Shelving for Every Space

The *Mix + Match Modular Shelving* is a patent-pending modular shelving system designed to adapt to changing needs. Featuring ***shelves made from 2,947 reclaimed bamboo chopsticks, this product avoids 315.62 pounds of CO₂ emissions***. Its versatile design allows it to function as either one larger shelving unit or two smaller ones, offering adaptable storage solutions for any space. [Available online for \\$270.00.](#)

Eco-Chic Shoe Organization and Bench

The *Kick Up Your Heels Shoe Bench* offers a chic, sustainable solution for organizing shoes and accessories. ***Its top is constructed from 1,067 reclaimed bamboo chopsticks, contributing to 114.28 pounds of CO₂ emissions avoided***. The three-tier design pairs style with practicality, creating a beautiful addition to entryways, closets, and living spaces. [Available online for \\$198.00.](#)

All of RENEW by TRINITY's products are proudly made in the USA and available at <https://www.renewbytrinity.com/>.

About Us

RENEW by TRINITY is a pioneering sustainable housewares brand, proudly made in the USA, that transforms reclaimed bamboo chopsticks into artisan-crafted home essentials. RENEW's innovative products, from serving boards to adaptable storage and organization solutions, enhance modern living spaces while significantly reducing carbon emissions and waste. Rooted in a commitment to quality, sustainability, and artisan craftsmanship, RENEW empowers eco-conscious consumers to embrace stylish and responsible design, redefining what it means to live beautifully and sustainably.
